

PROJECT LOCATION

Plymouth, MI

DATE OF ACTIVATION

March 2017

CORE USE CASE

Plastipak wanted to revamp its auditorium with ThinkHub and ViewHub to easily present to and engage with large audiences.

HARDWARE

- (2) 70" Interactive Walls running ThinkHub
- (1) LED video wall running ViewHub

SOFTWARE

- ViewHub
 - Option to mirror ThinkHub displays
 - Supports up to 4 shared devices
 - Supports wireless device sharing on macOS, iOS, Windows, Android, Linux devices
- ThinkHub
 - Multitouch, multiuser, multiapplication
 - Annotation toolset
 - Built-in Notes, Sketches, Web Browser
 - Supports wireless device sharing on macOS, iOS, Windows, Android, Linux devices

ThinkHub and ViewHub have been combined to power a more interactive presentation experience. The ThinkHub Canvas provides presenters the ability to engage with content while presenting, while the large ViewHub display consolidates all presentation for the audience that is easy to see.
