

## CORE USE CASE

Innovative pre-construction, construction management, design-build, general construction and industrial services management

## DATE OF ACTIVATION

May 2020

## PROJECT LOCATION

Neenah, WI

Madison, WI

Cedar Rapids, IA

## DESCRIPTION

ThinkHub MultiSite collaboration software powers a combination of conference rooms and project rooms at three office locations, with two additional future deployments planned. Replacing Prism software on existing displays, these units allow employees to connect through real-time, room-to-room collaboration on a variety of high-level construction projects.

- Interactive Canvas for unlimited content and wireless device sharing
- Digital whiteboarding, notes, web browser, and grouping tool for content creation and organization
- Remote meeting participants can connect and share from any network
