Instant Meeting

Meeting Name

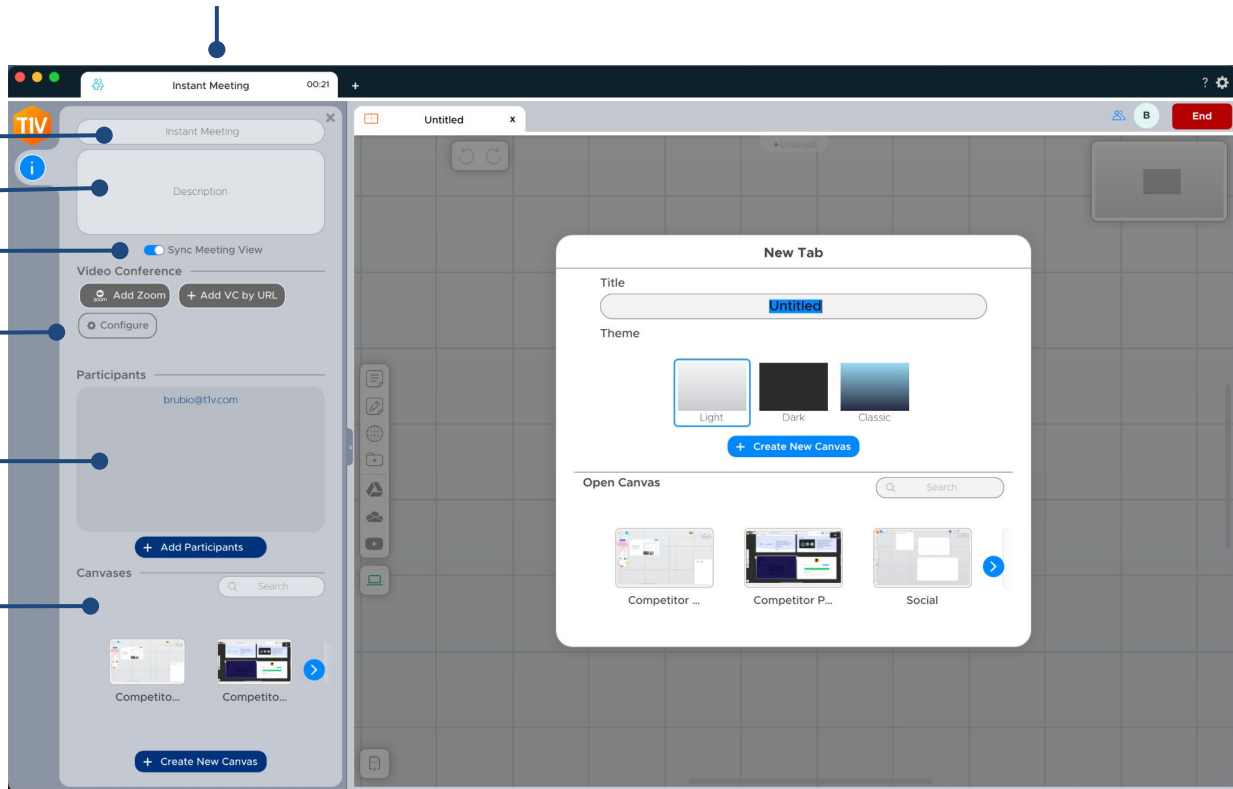

Meeting Description

Sync View

Add Video Conferencing

Add Meeting Participants

Add Meeting Canvases

The screenshot displays the T1V Instant Meeting interface. On the left, a sidebar contains controls for the meeting, including fields for the name and description, a 'Sync Meeting View' toggle, buttons for adding video conferencing (Zoom and by URL), a list of participants, and a section for canvases. On the right, the main workspace shows a grid of canvases. A 'New Tab' dialog is open, allowing users to create a new canvas with a title, theme (Light, Dark, or Classic), and a search for existing canvases. The dialog also includes a 'Create New Canvas' button and a list of existing canvases like 'Competitor ...' and 'Social'.
