T1V To Unveil The Cube, Powered by ThinkHub Collaboration Software, at InfoComm15

T1V announces lineup of interactive products at InfoComm15 Booth 4973, including The Cube – four (4) 84” 4K Interactive Walls – powered by T1V’s signature collaboration software, ThinkHub™.

Charlotte, NC -- T1V, a provider of interactive touchscreen technology, announces its interactive structure – The Cube – will be showcased at InfoComm15. The Cube is an innovative construct that features four (4) 84” 4K Interactive Walls, powered by T1V’s signature collaboration software, ThinkHub.

The Cube will be accompanied by T1V’s BYOD (bring your own device) Bars – highlighting ThinkHub’s MOD (mirror own device) Mode, which allows any number (and type – Windows, Mac) of devices to connect to the ThinkHub Canvas. The Cube will also feature a number of T1V’s signature multitouch software applications, including but not limited to: OneShop™, DirectMe™, and Build-A-Fish.

T1V will also showcase its expanded digital signage offering, including ‘The Pinwheel’ – a unique array of digital signage, powered by the T1Vmega, T1V’s most powerful media player. In addition to the T1Vmega, T1V will introduce the T1Vnano and T1Vmicro – T1V’s newest Android-based, commercial-grade media players that are competitively priced for the DIY and DOOH (digital out of home) markets. All of the activity in the T1V booth will be tracked in real time by **VisoMetrics™** - the AVA (anonymous video analytics) software.

To further highlight its interactive product offering for the enterprise and higher education markets, visitors can experience the T1V Collaboration Table – featuring an integrated 32” touchscreen and shared Media Screen, also powered by ThinkHub™.

To experience these products at InfoComm15 visit T1V Booth 4973. Learn more before the show, or schedule your demo today, at www.t1v.com/InfoComm15

About T1V

T1V creates interactive touchscreen experiences. Deliberately large in size and incredibly durable, our Interactive Platform includes tables and walls, along with complementary digital signage and mobile apps. Our products are powered by patented multitouch, multiuser software that transforms public spaces into more dynamic environments. The T1V team is made up of design, engineering, business and technology minds alike - resulting in unrivaled support to our customers from start to finish.
