

## CONTENT SHARING WITH THINKHUB

### Enhanced Visual Collaboration

#### CONNECT YOUR HYBRID TEAMS FROM ANY NETWORK, ANYWHERE

ThinkHub's advanced content sharing supports hybrid collaboration for blended in-room and remote teams - so all meeting participants can contribute, no matter where they are.

#### File-based Content

Share unlimited images, multi-page PDFs and more to visualize content and annotate together. Play videos right on the Canvas without lags or interruptions. Files can be shared to the Canvas from AirConnect, thumb drive, or file-based server.

*supports .jpeg, .png, .pdf, .mov, .mp4*

#### Web-based Content

Open multiple web browser windows to access live web content and compare dashboards side by side.

*supports any URL sent to the Canvas via AirConnect or opened in the Canvas browser*

#### Office 365 | G Suite | YouTube

Access your team productivity tools with the ThinkHub Canvas. When shared to the Canvas, all participants can edit and view together.

*supports Office 365, G Suite, YouTube live content*

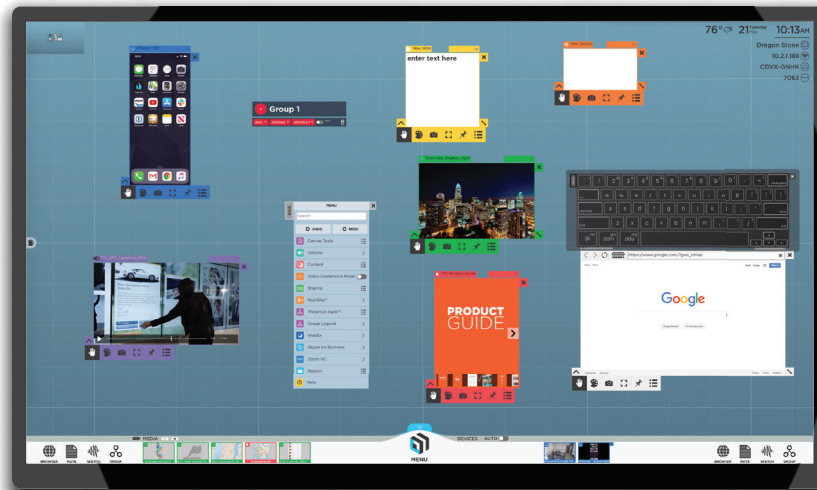

#### Wireless Devices

Wirelessly connect and cast unlimited devices like laptops and mobile devices for real-time screen sharing to the Canvas.

*supports Android, iOS, macOS, Windows, Linux devices*

#### BE AN ACTIVE PARTICIPANT

Contribute / participate / co-create alongside your in-office and remote colleagues.

## Share unlimited content + devices

#### Video Conferencing

Communicate with team members and clients face-to-face throughout a session with your choice of video conferencing integration.

*supports BlueJeans, MS Teams, Webex, Zoom*

#### Whiteboarding

Create unlimited digital whiteboards - actively annotate or rearrange them on the Canvas through multitouch controls.

#### Integrated Devices

Integrate IP cameras or up to 12 hardline inputs into your ThinkHub, enabling users to directly connect devices without being on a network.

*supports IP or PTZ cameras, document cameras, cable boxes, Apple TV, laptops, mobile devices and more...*

#### Save + Resume Sessions

Enjoy total content persistence from session to session for easier setup and follow-up, making meetings more efficient than ever.
