## SETUP GUIDE

WIRELESS SCREEN SHARING

# T1VHub™

wirelessly share devices for streamlined communication

## INSTALLATION

### Part I: Get Everything Plugged In

- Connect the T1V Hub appliance to power and network outlets.
- Connect the display to power.
- Connect the T1V Hub to the display with HDMI cable. Look for the Hub signal on screen. If no signal appears, see troubleshooting section.

### Part II: Download AirConnect

- Laptop + Tablet Users, Download AirConnect at [t1v.com/AirConnect](http://t1v.com/AirConnect). Mobile Users, Download the AirConnect App on the App Store (iOS) or Google Play Store (Android).
-  Enter the AirConnect key.
-  Enter the Password.
- Once Connected, select 'Share' to mirror your device.
- Use AirConnect whether connecting in-room or remotely to view the shared Hub display.

### NOTE:

If you are configuring multiple Hubs, please contact T1V Support to help you get set up (it will go a lot faster).

# TROUBLESHOOTING

*The display shows a blank black screen, static, or 'no signal.'*

1. Verify that the display is connected to a power source and is turned on.
2. Verify that the appliance is properly connected to the display.
3. Use the display remote or settings buttons to set the input to the correct HDMI input.
4. Plug in a keyboard to the Hub appliance, and press the Ctrl+R keys to cycle through different display resolutions.
5. Unplug the display from the power source. Wait 15 seconds, then reconnect to the power source.
6. If steps 1-5 do not resolve the issue, call or email TIV Support.

*The display shows 'the software is in hibernation.'*

1. Reseat the HDMI.
2. Turn off the Hub appliance. Wait 30 seconds, then press the power button to turn it back on.
3. Unplug the display from the power source. Wait 15 seconds, then reconnect to the power source.
4. If steps 1-3 do not resolve the issue, call or email TIV Support.
